PROFESSIONAL EXPERIENCE

Freelance PHP Architect

Various Clients (Portugal, Brazil)

05/2024 - Present

- Designed scalable, resilient, and low-latency PHP solutions for the European market.
- Led the migration of legacy monoliths to modern cloud-native architectures (AWS).
- Defined Design Patterns and architectural standards, ensuring system integrity and providing mentorship to engineering teams.
- Optimized technical KPIs, security, and horizontal scalability for mission-critical applications.
- PHP 8.x, Laravel, AWS, Docker, Redis, RESTful APIs, GitHub Actions, and PHPUnit.

Senior PHP Developer

RoomRaccoon (Portugal, South Africa)

08/2023 - 01/2024

- Vanilla PHP, MySQL, Vue.js, JavaScript, Git Versioning, Linux
- Applied MVC, SOLID, and OOP principles to build efficient and scalable architectures.
- HMS (Hotel Management System): Developed new modules and extensive code refactoring.
- Optimized PHP performance through the implementation of monitoring tools dashboard.
- Collaborated effectively with CEO, international teams, agile squads, and product owners.

Full Stack Developer / IT Administrator

RPS Group - UK and Ireland Consulting (Ireland)

01/2022 - 05/2023

- Full Stack Development: PHP, SQL Server, Javascript application entire life cycle.
- Led the Desk Booking Application, a solution for desk and parking reservations.
- Automation & Refactoring: PowerShell and refactored .NET code and documentation.
- SysAdmin: Managed hybrid environments (Azure, AAD, Endpoint, Exchange, Defender).
- Roadmap and sprint planning; provided mentorship on PHP 8.2 and MVC structures.

Full Stack Developer

123 Milhas (Brazil)

06/2019 - 05/2021

- Upgraded the internal system codebase from PHP 5.3 to 8.1.
- Full Stack development using Vanilla PHP, SQL Server, JavaScript, Bootstrap, and jQuery.
- Developed REST APIs, refactored SQL queries, managed load balancer and documentation.
- Developed PHP modules and mapped the technical stack's architectural endpoints.

Full Stack Developer (2014) / IT Analyst (2011)

Telemont Engenharia de Telecomunicações LTDA (Brazil)

11/2011 - 07/2018

- Full Stack PHP: Developed Helpdesk and IT Asset Management systems.
- Used SQL Server, JavaScript, and Bootstrap; implemented Cron Jobs and Dashboards.
- Network Administrator: Managed AD, ISA, Forefront TMG, DHCP, DNS, and MS Exchange.
